Guide for Installing the Digital Deposits Service for USB Scanners

Introduction

This document is for businesses that want to deposit cheques using a USB scanner with a PC.

After reading this guide, please refer to the Digital Deposits – User Guide.

Items must be scanned within Canada or The United States.

Important: Are you using a MAC computer to make your deposits?

- > Do not connect the scanner to the workstation until it is explicitly requested.
- > Please consult the guide for MAC computers for all technical specifics .

Before you start

Make sure you have access to *Internet Banking Solutions* for businesses and the *Digital Deposits* service

You must have the depositor role (see the *Managing roles* section) in order to complete the installation.

Validate that your computer meets the minimum requirements presented in the *Technical specifications* section

A user with administrator rights must authorize the first step of the installation on the workstation, namely: *Installing my scanner*.

Step 1: Installing my scanner

Here are the steps to follow in order to install your scanner.

Access the platform:

- > Connect to Internet Banking Solutions for businesses.
- > Access the Digital Deposits option located in the left menu.

> The following window will appear, click on Remote Deposit Scanner Service link.

Please note that the service installation instructions are only displayed in English. Click on the Next button

> Check on the I accept the terms in the License Agreement box and click the Next button.

Your cheque scanner driver is being updated. To prepare the cheque scanner for update, please unplug your scanner's USB cable and click "Continue"	Your cheque scanner driver has been updated. Please plug your scanner back in and click "Continue"
Continue	Continue

Once the installation is complete, the Make a deposit tab will appear which means that you can now make deposits.

Step 4: Language configuration

The Digital deposits platform can be displayed in the following languages: French (Canada) and English.

The display language of the Digital deposits is based on the language of your browser.

If you wish to change the language, you will have to make the change directly in your browser.

Need help? Refer to the links below.

Browser	How to change the language	Do you need to restart?
Microsoft Internet Explorer*	Tutorial	Yes
Google Chrome	Tutorial	No (close and reopen your browser)
Mozilla Firefox	Tutorial	No (close and reopen your browser)
Apple Safari*	Tutorial	Yes

* You do not need to have administrator rights on the computer to change the language of your browser.

** To prevent the change of language from impacting your desktop language, we recommend that you use Google Chrome or Mozilla Firefox as your browser.

Step 5: Deposit test (without submitting)

To ensure that the installation was successful, we recommend that you run a test deposit by following the steps in the *Making a deposit* section until you see the screen below:

.....

1-MONTREA x5526 3 \$1.354.99	Scan Complete All items were scanned. Please review your items before submitting your deposit.	<u>Cancel Deposit</u>
€ \$1,354.99	You can enter a note about this deposit here	Scan More Items
Amount		+
	I-MONTREA x5526 3 \$1,354.99 ℤ \$1,354.99 Mmount	I-MONTREA x5526 3 \$1,354.99 ☞ \$1,354.99 ☞ \$1,354.99 Mou can enter a note about this deposit here Amount

- If the scanning of your item is successful; this will confirm that you are ready to make your deposits.
- > Click on the Cancel deposit link and then the **Continue** button to confirm the cancellation.

Requirements

To use the Digital deposit service, your workstation must meet the minimum requirements below:

Ownerficetiens	Minimum requirements			
Specifications	PC	MAC		
Processor	One or many processors @ 2,8 GHz or more			
RAM	2 Go			
Disk space	30 Mo (to install your scanner)			
Operating system	Microsoft Windows 10 Pro or Business. Important : Home family versions and 10s are not supported.	Mac OS 10.15.7 Catalina		
Browser	 Microsoft Internet Explorer 11 (supported until august 2021) or most recent Microsoft Edge Google Chrome (33.0 or more) Mozilla Firefox (31.0 or more) 	 Apple Safari (13.1.2 or more) Google Chrome (33.0 or more) Mozilla Firefox (31.0 or more) 		
Display	A display adapter and monitor with a capacity of at least 1024 x 768 resolution			
.NET functionnality.	To allow the installation of the Digital deposits, verify that the version of the .Net feature is 4.5.2 or newer and is enabled (Appendix - D)	N/A		
Scanner connectivity	Available USB 2.0 port	Available IP address		
Firewall	Port 443 must be available to local applications. To verify if the port has been added, you can run a <i>Telnet</i> on L'URL https://ssoconnectrdc.ca/443	N/A		

Check the version of the .Net feature and activate it

IMPORTANT:

A user with system administrator rights must be present to authorize the following actions.

If you have Windows 10 or later

Open the Control Panel (e.g., by clicking the **Windows** button and typing "Control Panel"), click *Programs and Features*, click *Turn Windows features on or off*, check the version number of the ASP.NET feature and make sure it is ticked:

If you have Windows 7 or 8.1

You will need to download and install the latest version of the .Net feature from the Microsoft website: <u>https://dotnet.microsoft.com/download/dotnet-framework/thank-you/net48-web-installer</u>

Appendix B - Uninstalling the Software

Uninstalling the digital deposit software

If the updates are not completed by the deadline, you will need to completely uninstall and reinstall the solution to regain access to the digital cheque deposit.

1. Right-click on the Windows logo at the bottom left of your screen on Windows 10. Or near the middle of the screen on Windows 11. And go in the "Apps and Features" option.

2. Then search for the Application "Remote Deposit Scanner Service". Click on it once and then select "Uninstall" and follow the instruction on screen.
